Books like insidious (tales from the dark side, #1) insidious (tales from the dark side, #1) by aleatha romig (goodreads author)

Fire-tongue is definitely an interesting read, but the language and culture are obviously from a different era. that's not necessarily a bad thing, but it has quite a different flow from modern english, and the story is rampant with racism. this is a fairly predictable mystery story with enough fun and exotic detail to make it entertaining.
